Cahier d'exercices

2. Wiersma
Cahier d'exercices

3. Sijbrands
Cahier d'exercices

4. Roozenburg
Cahier d'exercices

5. Springer
Cahier d'exercices

6. Hoogland

Dans ce cahier:

-  La prise et la prise du plus grand nombre
-  Regarder et réfléchir
-  L'attaque et la défense
-  La combinaison
-  Le blocage
-  La dame
-  La construction d'une position
-  La fin de partie
-  Des tests

Ce cours a été adapté pour joueurs débutants!

Cours afin d'obtenir le diplôme van der Wal Cahier d'exercices

Avant-propos

Dans ce cahier d'exercices la quantité de texte est minime. L'important, ce sont les diagrammes, il n'est pas nécessaire de lire beaucoup.

Il y a deux sujets avec chacun quarante diagrammes représentant des positions qui peuvent être résolues directement sans utiliser un damier.

Au bout d'une série de quatre leçons il y a encore un exercice de révision.

A la fin de ce premier cahier d'exercices il y a un test.

Table de matières

Leçon 1	La prise est obligatoire	
Exercice 1	Cherchez la rafle pour les blancs	1
Exercice 2	Cherchez la rafle pour les blancs ou les noirs	3
Leçon 2	La prise du plus grand nombre	
Exercice 1	Cherchez la prise du plus grand nombre	5
Exercice 2	Cherchez la prise du plus grand nombre pour les blancs ou les noirs	7
Leçon 3	La dame et la prise du plus grand nombre	
Exercice 1	Cherchez la rafle avec la dame blanche	9
Exercice 2	Cherchez la prise correcte	11
Leçon 4	Regardez, réfléchissez et jouez	
Exercice 1	Cherchez le coup le plus malin pour les blancs	13
Exercice 2	Le coup est-il correct ou erroné?	15
Exercice 3	Révision: cherchez le meilleur coup pour les blancs	17
Leçon 5	L'Attaque et la défense	
Exercice 1	Cherchez le meilleur coup d'attaque	19
Exercice 2	Cherchez le meilleur coup de défense	21
Leçon 6	La combinaison

Exercice 2	Quelle couleur a la meilleure position?	39
Leçon 10	La fin de partie	
Exercice 1	Les blancs gagnent en bloquant les noirs	41
Exercice 2	Les blancs gagnent par une dame forte	43
Leçon 11	Que des petites combinaisons	
Exercice 1	Les blancs gagnent par un coup de repos malin	45
Exercice 2	Les blancs gagnent par le collage	47
Leçon 12	Bonne partie	
Exercice 1	Les blancs gagnent par une combinaison	49
Exercice 2	Que doivent faire les blancs ?	51
Exercice 3	Révision: cherchez le meilleur coup pour les blancs	53
Exercice 4	Test	55

Leçon 1

La prise est obligatoire

Exercice 1 Cherchez la rafle pour les blancs

Une des règles les plus importantes du jeu de dames est celle-ci: la prise est obligatoire.

Si on peut prendre, on est obligé de prendre!

Dans les diagrammes suivants les blancs doivent prendre. Une question pour vous : où est-ce que les blancs doivent-ils prendre?

Dans le diagramme 1 on voit la rafle tout de suite. Nous y avons déjà mis une flèche.

A vous de mettre une flèche à la rafle des blancs dans les vingt autres diagrammes.

DIAGRAMME 21

Leçon 2

La prise du plus grand nombre est obligatoire

Exercice 1 Cherchez la prise du plus grand nombre

La prise du plus grand nombre est obligatoire! Il faut prendre autant de pions que possible.
 Dans le diagramme 1 les blancs n'ont pas le droit de prendre un seul pion, il faut qu'ils en prennent deux, car la prise du plus grand nombre est prioritaire.
 Indiquez par une flèche la prise du plus grand nombre dans les vingt diagrammes.

Leçon 2

La prise du plus grand nombre est obligatoire

Exercice 2 Cherchez la prise du plus grand nombre pour les blancs ou les noirs

La prise du plus grand nombre est prioritaire!

Dans les diagrammes suivants les blancs et les noirs peuvent prendre.

A vous de chercher quelle couleur (blanc ou noir) peut prendre le plus de pions.

Dans le diagramme 1 on voit que les noirs peuvent prendre deux pions. Les blancs ne peuvent prendre qu'un pion. Cherchez la couleur qui peut prendre le plus de pions. Indiquez cette rafle par une flèche.

Leçon 3

La dame et la prise du plus grand nombre

Exercice 1 Cherchez la prise avec la dame blanche

Une dame est terriblement forte. Elle peut se déplacer et elle peut prendre excellemment.

Mais il faut qu'on le voie.

Dans le diagramme 1 on voit comment la dame blanche prend tous les pions noirs du damier.

Cherchez dans les vingt autres diagrammes la rafle de la dame blanche qui rapporte le plus de pions possible.

DIAGRAMME 21

Leçon 3

La dame et la prise du plus grand nombre

Exercice 2 Cherchez la rafle correcte

La prise du plus grand nombre est prioritaire, et non la rafle avec la dame.

Dans le diagramme 1 les blancs ont le choix. Ils peuvent prendre avec leur dame, mais aussi avec un pion. Le choix revient au joueur des blancs. On dit aussi: le choix de prise.

Il va de soi que les blancs prennent avec leur pion dans le diagramme 1, sinon ils perdent leur dame. Cherchez dans les vingt autres diagrammes le meilleur coup et correct pour les blancs.

DIAGRAMME 1

DIAGRAMME 19

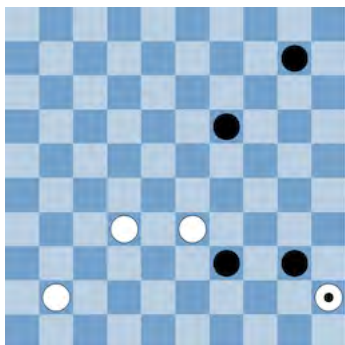

DIAGRAMME 20

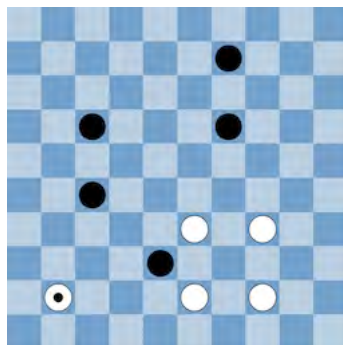

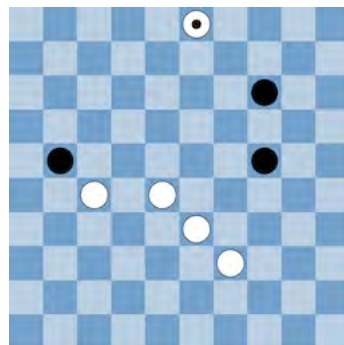

DIAGRAMME 21

Regardez, réfléchissez et jouez

Exercice 1 Cherchez le coup le plus fort qui est aussi le plus malin pour les blancs

Le jeu de dames est un sport de l'esprit, mais aussi un sport d'observation. Regardez toujours quels coups sont possibles! Essayez de découvrir si on doit prendre quelque part. Ou est-ce que l'autre menace de prendre?

Mais en plus: est-ce qu'on peut faire un coup fort avec un pion ou avec la dame?

Dans le diagramme 1 les blancs bloquent les noirs avec leur dame. Cherchez dans les vingt diagrammes suivants le coup le plus fort mais aussi le coup le plus malin pour les blancs.

DIAGRAMME 20

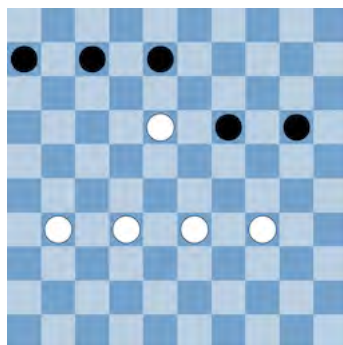

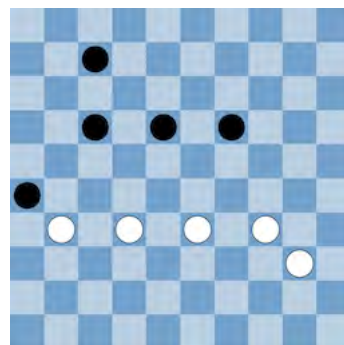

DIAGRAMME 21

Leçon 4

Regardez, réfléchissez et jouez

Exercice 2 Est-ce que le coup est correct ou erroné?

Imaginez que vous êtes un reporter qui assiste à vingt matches et vous faites le commentaire.

Indiquez si le coup que les blancs veulent jouer est correct ou erroné.

Mais ajoutez aussi pour quelle raison le coup est erroné.

Quel coup auriez-vous fait? Mettez une flèche à ce coup.

Dans le diagramme 1 les blancs attaquent un pion noir: ils vont attaquer (flèche 1)

Mais c'est une erreur bien sûr: ils sont obligés de prendre (flèche 2)

Leçon 4

Regardez, réfléchissez et jouez

Exercice 3 Révision: cherchez le meilleur coup pour les blancs

Une révision courte de ce que nous avons appris jusqu'à présent.

Regardez bien toujours quels coups l'adversaire peut jouer!

Essayez de voir si on doit prendre ou si l'adversaire menace de prendre.

Mais essayez aussi de voir si on peut jouer un coup fort avec un pion ou avec la dame.

Cherchez non seulement le coup le plus fort mais aussi le coup le plus malin des blancs.

Dans le diagramme 1 les blancs bloquent les noirs avec leur dame.

Leçon 5

L'attaque et la défense

Exercice 1 On gagne une partie de dames en conquérant les pions de son adversaire.

Parfois on peut gagner des pions parce que l'adversaire donne des pions sans le vouloir.

Mais le plus souvent il faut trouver une astuce.

Une bonne tactique est d'attaquer et menacer de prendre.

Dans le diagramme 1 les blancs peuvent bien attaquer. Le pion noir est perdu.

Mettez une flèche au meilleur coup d'attaque dans les vingt diagrammes suivants.

DIAGRAMME 20

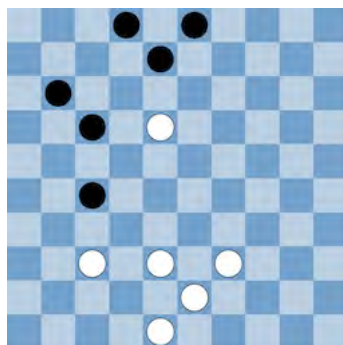

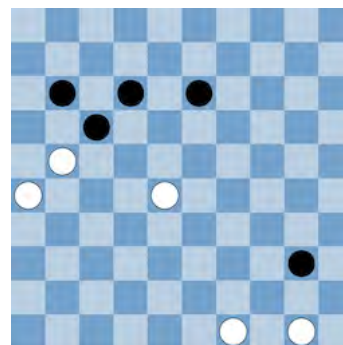

DIAGRAMME 21

Leçon 5

L'attaque et la défense

**Exercice 2** Cherchez le meilleur coup de défense

Si nous savons comment on doit attaquer, il faut que nous sachions aussi comment nous défendre.

Il y a trois méthodes: s'en aller, fermer (boucher) et attraper (pionner).

Mais il y a une quatrième méthode: la combinaison.

Appliquez une de ces quatre méthodes dans les vingt diagrammes suivants.

Parfois il y a plusieurs bonnes réponses!

Dans le diagramme 1 il va de soi que les blancs vont attraper. On dit aussi 'pionner'.

DIAGRAMME 19

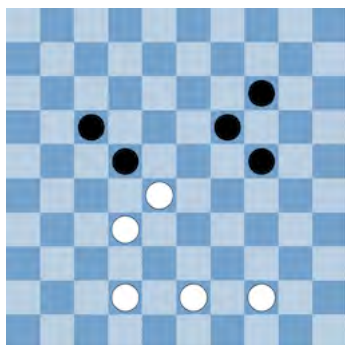

DIAGRAMME 20

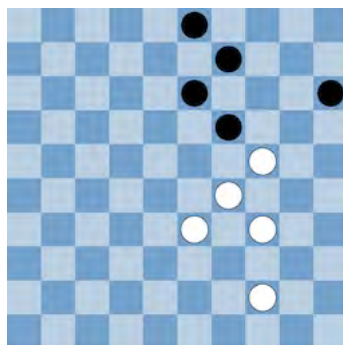

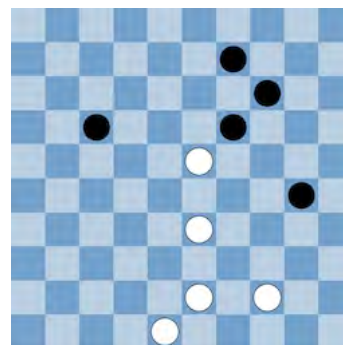

DIAGRAMME 21

Leçon 6

La combinaison

Exercice 1 Cherchez la combinaison

Qui ne rêve pas de faire une combinaison? Donner des pions et en reprendre davantage.

C'est une des choses les plus amusantes du jeu de dames.

Dans les diagrammes suivants les blancs donnent un pion (parfois deux) et en reprennent toujours davantage. Cherchez le coup malin qui permet aux blancs de faire une combinaison.

Dans le diagramme 1 les noirs ont attaqué un pion blanc.

Au coup suivant des blancs, ils attaquent aussi un pion noir, mais ils en reprennent deux.

DIAGRAMME 20

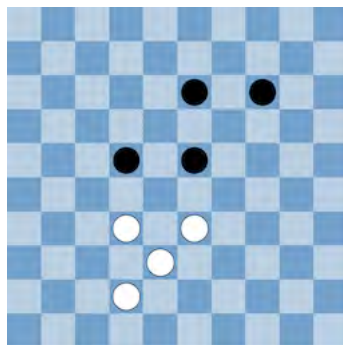

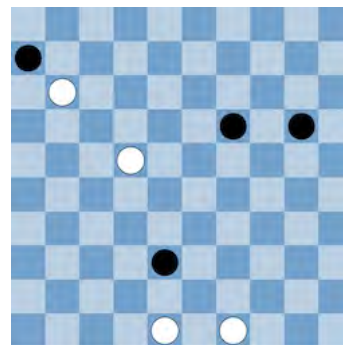

DIAGRAMME 21

Leçon 6

La combinaison

Exercice 2 Cherchez la combinaison

La combinaison encore une fois.

Mais cette fois on va donner deux pions.....pour reprendre au moins trois pions noirs!

Parfois on donne même trois pions! Bien sûr pour reprendre au moins quatre pions noirs.

Dans le diagramme 1 les blancs donnent deux pions et en reprennent trois du damier..

Bonne chance avec les vingt autres diagrammes

DIAGRAMME 21

Leçon 7

Le Blocage

Exercice 1 Bloquez les noirs

Une tactique très importante est le blocage.

Si on bloque son adversaire, il n'a plus d'échappatoire.

Dans cette situation il ne lui reste qu'à donner tous ses pions.

Dans le diagramme 1 on voit comment les blancs peuvent gagner d'une manière simple.

Essayez maintenant de gagner les vingt autres positions en bloquant les noirs!

Pensez aussi au poinnage et à la combinaison.

DIAGRAMME 19

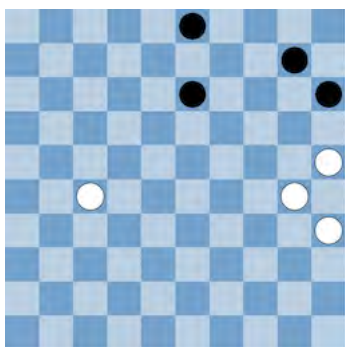

DIAGRAMME 20

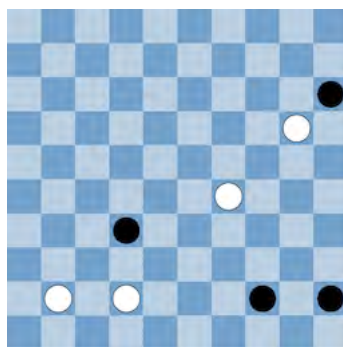

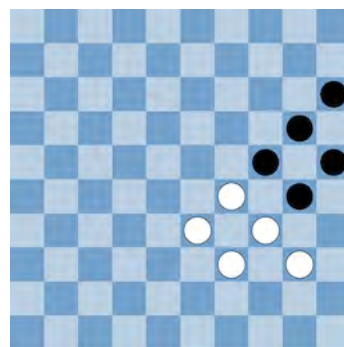

DIAGRAMME 21

Leçon 7

Le Blocage

Exercice 2 Bloquez les noirs en exécutant une combinaison

La combinaison: donner des pions et en reprendre davantage.

Les blancs donnent au moins deux pions (parfois trois pions)....afin d'en reprendre au moins davantage.

Dans le diagramme 1 les blancs donnent deux pions et en reprennent trois!

Après cette combinaison les noirs sont bloqués.

Cherchez les combinaisons menant au blocage dans les vingt autres diagrammes.

DIAGRAMME 21

Leçon 8

Aller à dame

**Exercice 1** Les blancs vont à dame

Notre jeu s'appelle le jeu de dames. Aussi, notre exercice est cette fois: aller à dame.

Car une dame est très forte.

On va à dame en déplaçant un pion, en pionnant mais aussi en exécutant une combinaison.

Dans le diagramme 1 les blancs donnent un pion et par cette action ils vont à dame.

Cherchez dans les vingt autres diagrammes comment les blancs peuvent aller à dame.

Prenez un damier avec des pions si vous ne voyez pas tout de suite l'action adaptée.

DIAGRAMME 21

Leçon 8

Aller à dame

Exercice 2 Les blancs débarrassent les obstacles noirs

Parfois le chemin vers la ligne de promotion est barrée.

Il y a des pions noirs qui gênent.

En pionnant et en sacrifiant des pions on peut se frayer un passage vers la ligne de promotion.

Dans le diagramme 1 les blancs sacrifient un pion pour passer librement à la ligne de promotion.

Cherchez la route vers la dame dans les vingt positions suivantes.

Aller à dame

Exercice 3 Révision: cherchez le meilleur coup pour les blancs

Voici une récapitulation des quatre leçons précédentes.

Regardez bien quels coups sont possibles!

Regardez si on doit prendre. Regardez si l'adversaire menace de prendre.

Cherchez non seulement le coup le plus fort mais aussi le coup le plus malin des blancs.

Dans le diagramme 1 les blancs attaquent un pion noir et ils débordront bientôt vers une dame.

Leçon 9

La Construction

**Exercice 1** Les blancs construisent une position solide.

Dans le jeu de dames il est important de construire une position solide.

Puisqu'avec une position forte on a un avantage.

Dans les diagrammes suivants les pions blancs sont tombés du damier.

Remettez les pions blancs sur le damier de sorte que les noirs soient bloqués. Attention: il faut éviter que les blancs ou les noirs se trouvent en prise.

Dans chaque diagramme les noirs ont le trait! Parfois il y a plusieurs solutions correctes.

Dans le diagramme 1 il va de soi que nous mettons un pion blanc au coin!

Leçon 9

La Construction

**Exercice 2** Quelle couleur a la meilleure position?

Une position forte, qu'est-ce que c'est?

Dans les diagrammes suivants c'est à vous de juger qui a la meilleure position, les blancs ou les noirs.

Dans tous les diagrammes les blancs ont le trait.

Dans le diagramme 1 les blancs ont la meilleure position, ils ont un pion de plus et les noirs sont bloqués. Note sous les diagrammes:

b + (les blancs meilleur), n + (les noirs meilleur) ou = (égalité, les deux ont une position solide)

DIAGRAMME 21

Leçon 10

La Fin de partie

Exercice 1 Les blancs gagnent en bloquant les noirs

Dans la fin de partie il faut transformer son avantage en victoire

Très souvent l'adversaire réussit à s'échapper de justesse.

Dans la fin de partie aussi les tactiques jouent un grand rôle.

Surtout les tactiques telles que le pionnage et le gambit sont assez souvent négligées.

Dans le diagramme 1 les blancs avancent vers le pion noir, les noirs peuvent encore s'en aller pour le moment mais les blancs jouent le coup décisif. Alors les noirs sont bloqués.

Prenez votre damier et vos pions. Les exercices sont assez difficiles!

DIAGRAMME 1

DIAGRAMME 21

Leçon 10

La Fin de partie

**Exercice 2** Les blancs gagnent par une dame forte

Une dame est très forte. Mais il est nécessaire de s'en servir.

Dans les positions suivantes on peut montrer la force de la dame blanche.

Cherchez un coup fort pour la dame blanche.

Ou exécute une combinaison avec la dame qui fait disparaître tous les pions noirs. Ou capture la dame noire. Dans le diagramme 1 les blancs mettent leur dame derrière un pion noir qui n'a pas vraiment la possibilité de s'en aller.

Très fort, car maintenant les autres pions noirs ne peuvent plus s'échapper!

Cherchez les vingt autres solutions. N'hésitez pas à prendre un damier et des pions!

Leçon 11

Que des (petites) combinaisons

**Exercice 1** Les blancs gagnent par un coup de repos malin

L'attaque est la meilleure défense, on le dit souvent.

Mais l'attaque n'est pas toujours une bonne idée.

Dans les positions suivantes les noirs attaquent. Mais ce sont les blancs qui en profitent.

Pour le démontrer, regardez le diagramme 1. Les blancs font un coup de repos malin.

Cherchez le coup de repos correct dans les positions suivantes.

Leçon 11

Que des (petites) combinaisons

**Exercice 2** Les blancs gagnent par un collage.

Les noirs mènent l'attaque. Ils attaquent les pions blancs.

Mais les blancs leur réservent leur botte secrète: Le collage!

Avec ce coup de collage ils savent profiter astucieusement de la règle de la prise du plus grand nombre.

Pour le démontrer, regardez le diagramme 1. Les noirs attaquent.

Mais les blancs collent contre un pion noir et ils prennent les trois pions.

Cherchez les vingt autres collages!

Bonne partie

Exercice 1 Les blancs gagnent par une combinaison

Cela fait maintenant douze leçons que nous avons étudiées. Nous avons déjà une grande connaissance du jeu de dames. Des tactiques et d'autres idées astucieuses.

Dans les vingt positions suivantes nous allons exécuter des combinaisons dans des positions où le nombre de pions est limité. Les blancs donnent un ou plusieurs pions pour en reprendre davantage bien sûr. Faites attention à la prise du plus grand nombre, au choix de prise, au temps et au collage. Dans le diagramme 1 nous démarrons de façon simple. Regardez le coup des blancs!

Cherchez dans les vingt autres diagrammes le meilleur coup pour les blancs!

Exercice 3 Révision: cherchez le meilleur coup pour les blancs.

Les vingt dernières questions pêle-mêle.

Les blancs ont le trait. Que doivent-ils faire ?

A vous de répondre à cette question.

Cherchez le meilleur coup pour les blancs. Pensez aux tactiques. A l'attaque et à la défense.

Mais aussi à la combinaison et à aller à dame.

Dans le diagramme 1 les blancs sont obligés de se défendre d'abord, sinon les noirs débordent.

Bonne chance!

Test 1

 Ce test se compose d'un certain nombre de exercices.

Ces exercices ressemblent beaucoup à celles qu'on a élaborées dans ce cours.

 Lisez toujours attentivement le texte qui accompagne une exercice

Vous saurez alors exactement ce que vous devez faire.
Observez aussi qui a le trait.

 Voici quelques exemples d'une exercice :

- ◆ Indiquez si le coup est correct ou erroné.
- ◆ Indiquez par une flèche le coup correct.
- ◆ Cochez la bonne réponse.

 Si par hasard vous ne comprendrez pas quelque chose n'hésitez pas à lever le doigt. Quelqu'un viendra t'aider.

 Si vous ne savez pas répondre à une question il vaut mieux la sauter pour réessayer plus tard.
Le plus souvent vous aurez la réponse à ce moment-là.

 Vous disposez d'une heure pour achever ce test.
Cela suffira largement.

 Chaque réponse vaut un point.

Vous avez réussi quand la moitié plus une de vos réponses sont correctes. Vous y arriverez sans aucun doute.

Exercice 1

Nous commençons par un test de règles du jeu de dames.

Est-ce que les règles suivantes sont correctes ou erronées?

Mettez un C (correct) ou un E (erroné) devant la règle de jeu.

☐

A. Toucher un pion ou une dame implique jouer obligatoirement

☐

B. La prise avec la dame a la priorité

☐

C. Avec une dame on ne peut prendre qu'en arrière

☐

D. Au choix de prise on peut toujours choisir

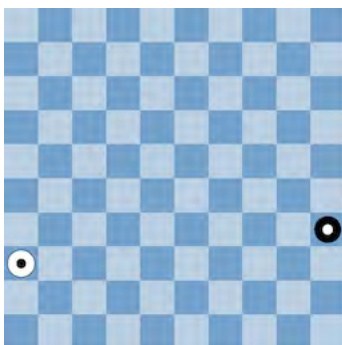

Exercice 2

Les blancs ont le trait.

Prédites les résultats des diagrammes 1,2 et 3.

Cochez sous les diagrammes la réponse correcte.

DIAGRAMME 1

☐

Les noirs gagnent

☐

Égalité

Exercice 3

DIAGRAMME 4

Dans le diagramme 4 les blancs ont le trait.

Combien de coups les blancs peuvent-ils faire?

A. Cinq coups

B. Six coups

C. Sept coups

Et si les noirs ont le trait dans le diagramme 4.

Combien de coups les noirs peuvent-ils faire?

A. Cinq coups

B. Six coups

C. Sept coups

Exercice 4

Dans les diagrammes 5, 6 et 7 les blancs ont le trait.

Ils sont obligés de prendre.

Indiquez par une flèche la rafle.

DIAGRAMME 5

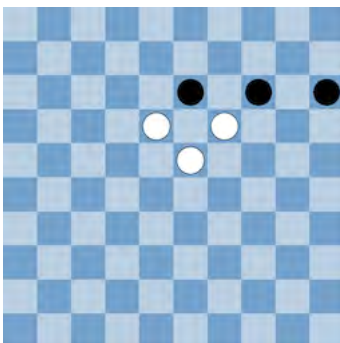

DIAGRAMME 6

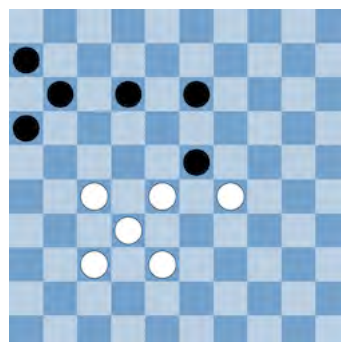

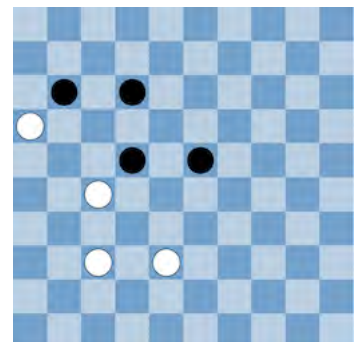

DIAGRAMME 7

Exercice 5

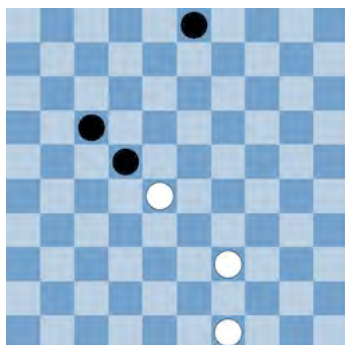

Dans le diagramme 8 les noirs ont attaqué un pion blanc.

Ils menacent de prendre deux pions blancs.

Heureusement les blancs ont encore la possibilité de se défendre.

De combien de manières les blancs peuvent-ils se défendre?

DIAGRAMME 8

A. D'une manière

B. De deux manières

C. De trois manières

Exercice 6

Les blancs ont le trait dans les diagrammes 9, 10 et 11.

Regardez bien ce qui se passe.

Trouvez un coup malin.

Indiquez votre réponse par une flèche.

DIAGRAMME 9

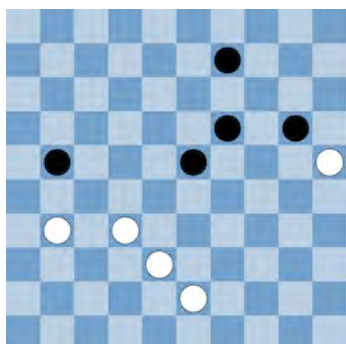

DIAGRAMME 10

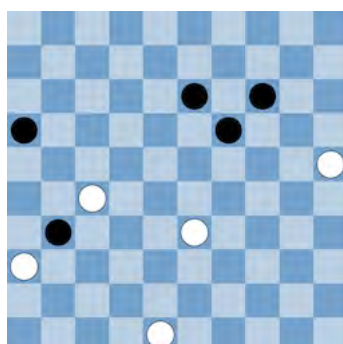

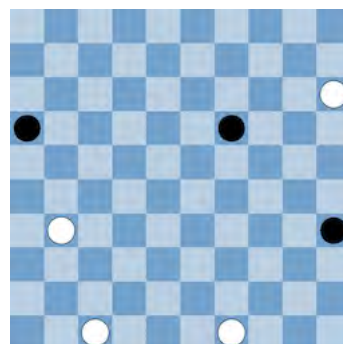

DIAGRAMME 11

Exercice 7

Dans les trois diagrammes suivants les blancs veulent déborder vers une dame.
Quel doit être le premier coup des blancs alors?
Indiquez ce coup par une flèche.

DIAGRAMME 12

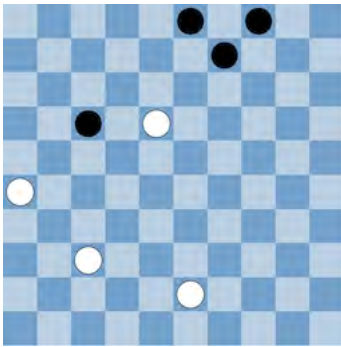

DIAGRAMME 13

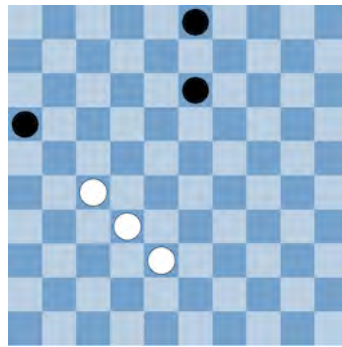

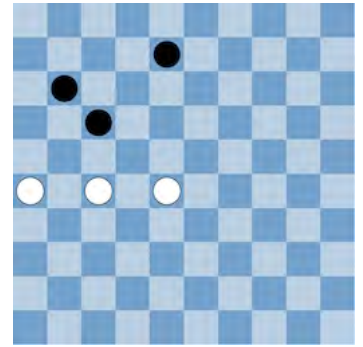

DIAGRAMME 14

Exercice 8

Dans les trois diagrammes suivants les blancs veulent gagner en bloquant les noirs.
Quel est leur premier coup?

DIAGRAMME 15

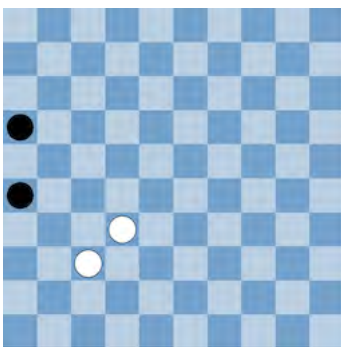

DIAGRAMME 16

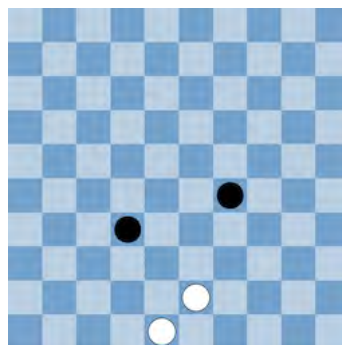

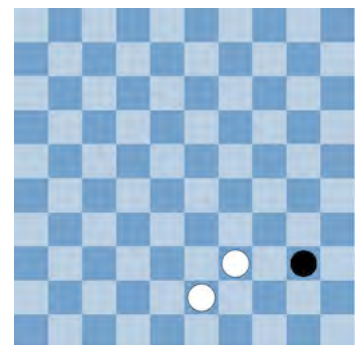

DIAGRAMME 17

Exercice 9

Dans les trois fins de partie suivantes les blancs peuvent gagner.
Indiquez par une flèche le coup gagnant.

DIAGRAMME 18

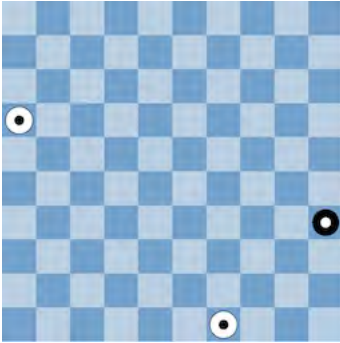

DIAGRAMME 19

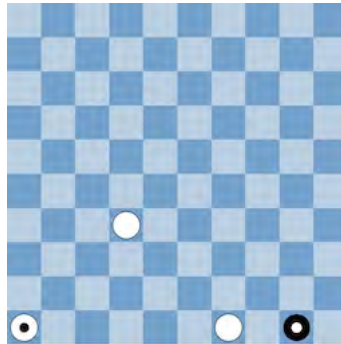

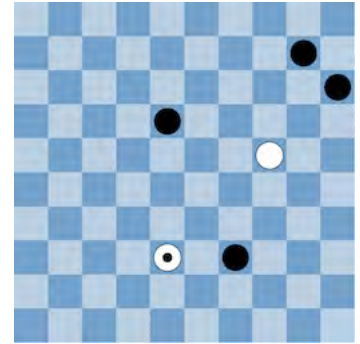

DIAGRAMME 20

Exercice 10

Les diagrammes 21, 22 et 23 sont de vraies combinaisons.
Les blancs sacrifient des pions et en reprennent davantage.
Comment les blancs gagnent-ils?
Indiquez ce coup par une flèche.

DIAGRAMME 21

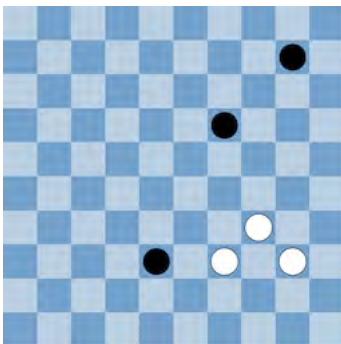

DIAGRAMME 22

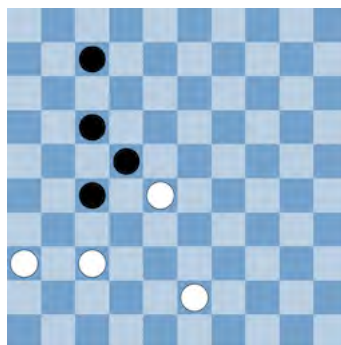

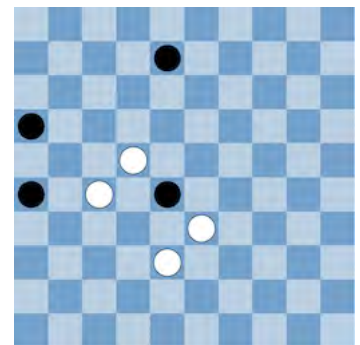

DIAGRAMME 23

Test 2

 Ce test se compose d'un certain nombre de exercices.

Ces exercices ressemblent beaucoup à celles qu'on a élaborées dans ce cours.

 Lisez toujours attentivement le texte qui accompagne une exercice.

Vous saurez alors exactement ce que vous devez faire.
Observez aussi qui a le trait.

 Voici quelques exemples d'une exercice :

- ◆ Indiquez si le coup est correct ou erroné.
- ◆ Indiquez par une flèche le coup correct.
- ◆ Cochez la bonne réponse.

 Si par hasard vous ne comprenez quelque chose n'hésitez pas à lever le doigt. Quelqu'un viendra t'aider.

 Si vous ne savez pas répondre à une question il vaut mieux la sauter pour réessayer plus tard.
Le plus souvent vous aurez la réponse à ce moment-là.

 Vous disposez d'une heure pour achever ce test.
Ça suffira largement.

 Chaque réponse vaut un point.

Vous avez réussi quand la moitié plus une de vos réponses sont correctes. Vous y arriverez sans aucun doute.

Exercice 1

Nous commençons par un test des règles de jeu.

Est-ce que les règles de jeu suivantes sont correctes ou erronées?

Mettez un C (correct) ou un E (erroné) devant la règle de jeu.

☐

A. Dans une partie de dames le joueur des blancs joue le premier coup.

☐

B. La prise n'est pas toujours obligatoire.

☐

C. Une dame ne peut prendre qu'en avant.

☐

D. Celui qui est bloqué a gagné.

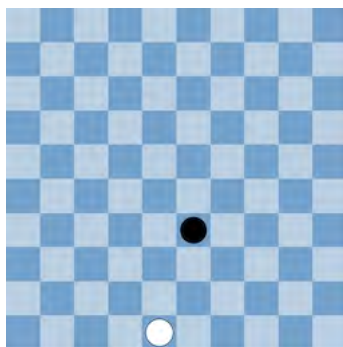

Exercice 2

Les blancs ont le trait.

Prédites les résultats des diagrammes 1, 2 et 3.

Cochez la réponse correcte sous les diagrammes.

DIAGRAMME 1

☐

Les blancs gagnent

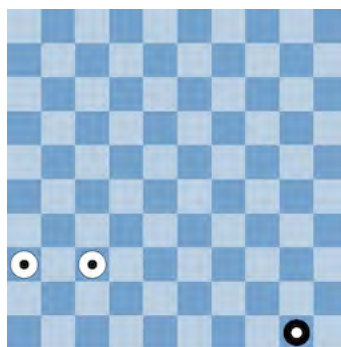

☐

Les noirs gagnent

Égalité

DIAGRAMME 2

☐

Les blancs gagnent

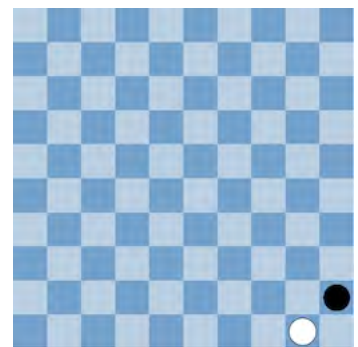

☐

Les noirs gagnent

☐

Égalité

DIAGRAMME 3

☐

Les blancs gagnent

☐

Les noirs gagnent

☐

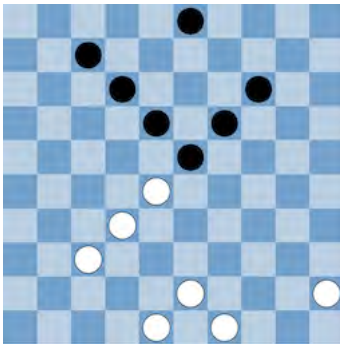

Égalité

Exercice 3

Dans le diagramme 4 les blancs ont le trait.
Donnez le nombre de coups possibles des blancs.
Combien y en a-t-il?
Cochez la réponse correcte.

DIAGRAMME 4

- ☐ A. Sept coups.
- ☐ B. Huit coups.
- ☐ C. Neuf coups.

Et si les noirs ont le trait dans le diagramme 4.
Combien de coups sont possibles pour les noirs?
Cochez la réponse correcte.

- ☐ A. Sept coups.
- ☐ B. Huit coups.
- ☐ C. Neuf coups.

Exercice 4

Dans les diagrammes 5, 6 et 7 les blancs ont le trait.
Ils sont obligés de prendre!
Indiquez par une flèche l'itinéraire correct.

DIAGRAMME 5

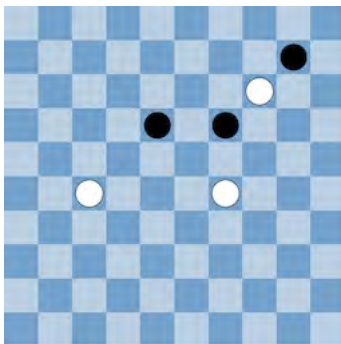

DIAGRAMME 6

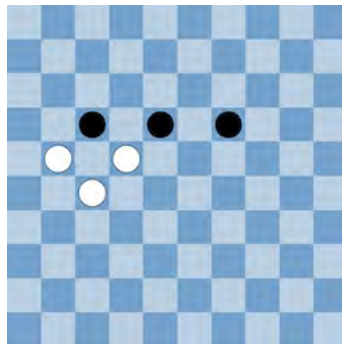

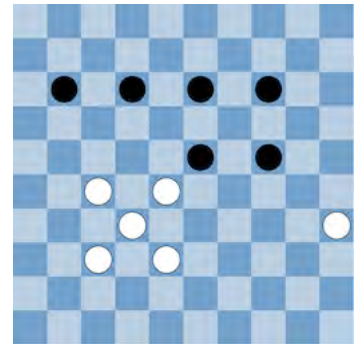

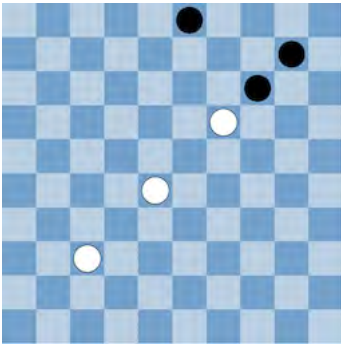

DIAGRAMME 7

Exercice 5

DIAGRAMME 8

Dans le diagramme 8 les noirs attaquent les blancs.

Ils menacent de prendre au moins trois pions.

Heureusement les blancs ont encore la possibilité de se défendre.

De combien de manières les blancs peuvent-ils encore se défendre?

Cochez la réponse correcte!

☐

A. D'une manière

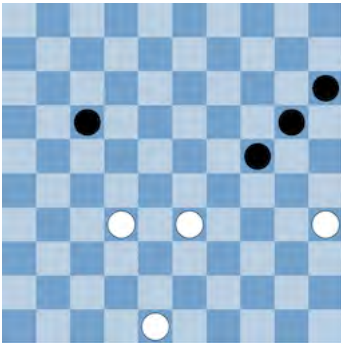

☐

B. De deux manières

☐

C. De trois manières

DIAGRAMME 9

Exercice 6

A.

Les noirs ont le trait dans le diagramme 9

Ils menacent de quel coup?

Indiquez par une flèche le coup correct.

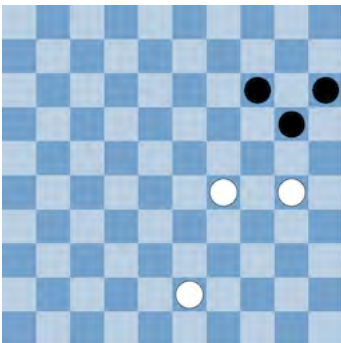

B.

Maintenant le trait est aux blancs dans le diagramme 9.

Quel coup devraient-ils jouer?

Indiquez aussi ce coup par une flèche.

DIAGRAMME 10

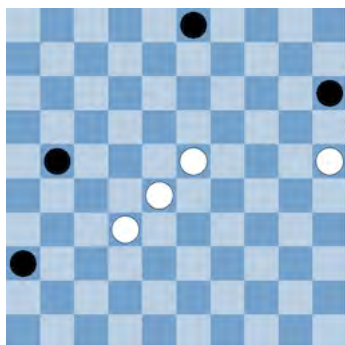

Exercice 7

Dans le diagramme 10 les blancs veulent gagner en bloquant les noirs.

Quel sera donc leur premier coup?

Indiquez le coup par une flèche.

DIAGRAMME 11

Exercice 8

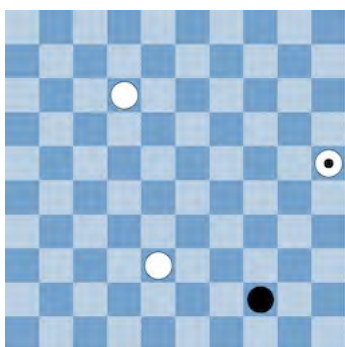

Dans le diagramme 11 les noirs veulent aller à dame.
Mais les blancs ont la possibilité de leur couper le passage de justesse !
Quel coup malin les blancs peuvent-ils jouer ici?
Indiquez ce coup par une flèche.

Exercice 9

Dans le diagramme 12 Ruby a deux pions blancs et une dame.
Daphné n'a qu'un seul pion et elle est obligée d'aller à dame.
Si Ruby, qui a le trait ici, veut encore gagner quel coup fort doit-elle jouer?
Indiquez ce coup par une flèche.

DIAGRAMME 12

Exercice 10

Les trois derniers diagrammes de ce test sont de vraies combinaisons. Les blancs sacrifient des pions et en reprennent davantage. Comment les blancs gagnent-ils?
Indiquez le coup gagnant par une flèche.

DIAGRAMME 13

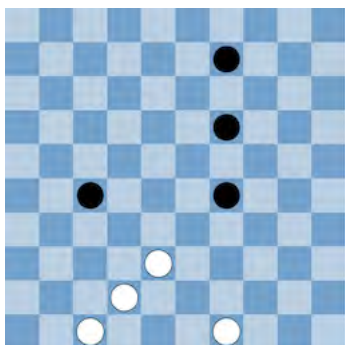

DIAGRAMME 14

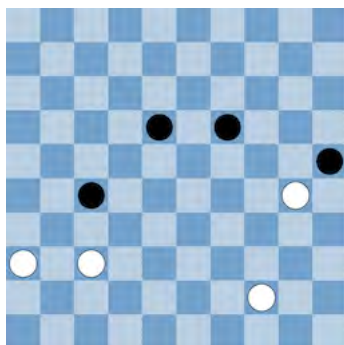

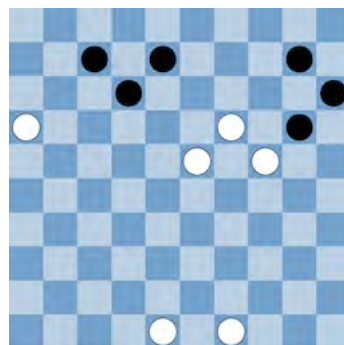

DIAGRAMME 15

Cahier d'exercices 1A

Jouer mieux aux dames

Dans le cours van der Wal on a appris à jouer aux dames. On a appris par exemple que la prise du plus grand nombre a la priorité. On a appris aussi qu'il ne faut pas jouer n'importe quoi, mais qu'il faut avoir une tactique. Une tactique importante est la combinaison. Dans cette partie du cours on va développer cette compétence de la combinaison. Si on s'entraîne beaucoup, alors on va jouer mieux aux dames. C'est pourquoi il y a deux livres d'exercices dans ce cours. Dans ces livres d'exercices nous avons rassemblé pas mal de positions pour approfondir votre connaissance du jeu.

Dans le Cahier d'exercices 1a il y a 14 séries de 48 diagrammes. Dans tous ces diagrammes les blancs ont la possibilité de gagner. Mettez une flèche au coup que les blancs doivent faire d'après vous. Mais.....réfléchissez toujours bien avant de mettre une flèche. Bien jouer aux dames implique de réfléchir d'abord et de faire un coup après.

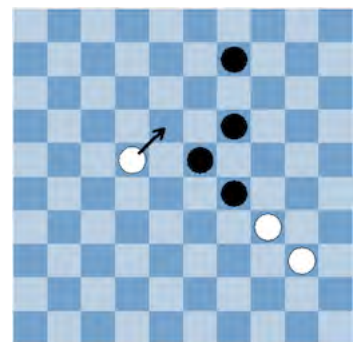

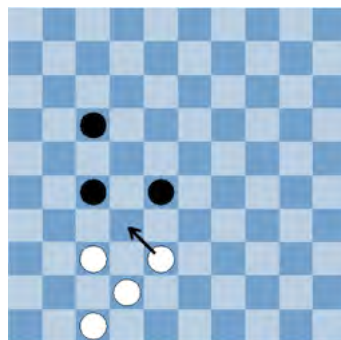

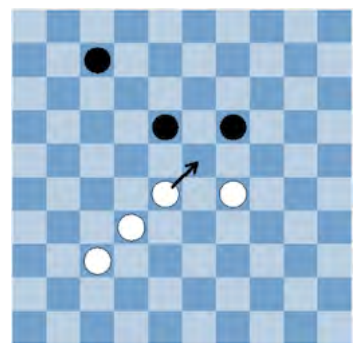

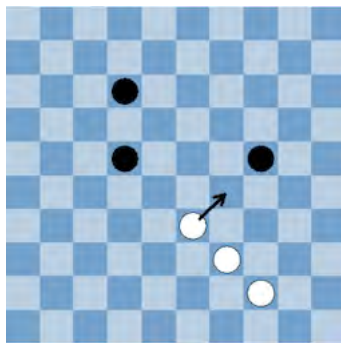

Ces 14 séries sont précédées par un exemple de plusieurs petites combinaisons. Jetez un coup d'œil sur ces combinaisons pour vous rafraîchir la mémoire.

Bonne chanceet avant tout, amusez-vous bien!

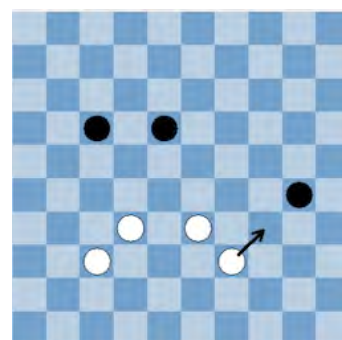

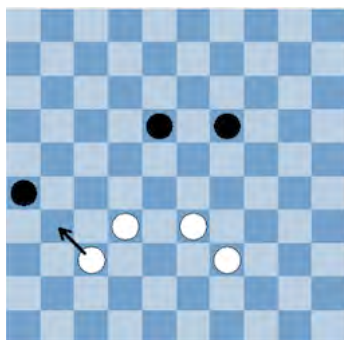

Quelles sortes de combinaisons va-t-on rencontrer?

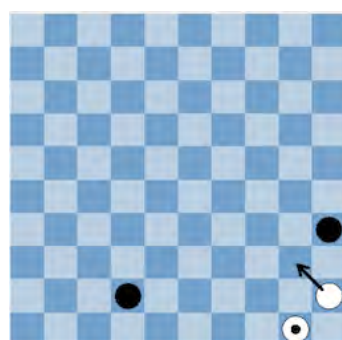

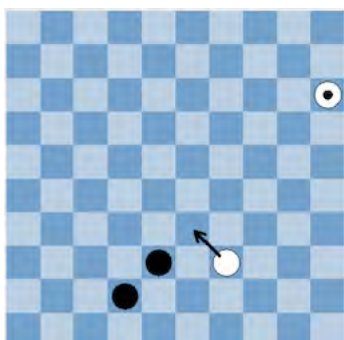

*Dans ce genre de positions on
donne un pion et on en reprend
davantage.*

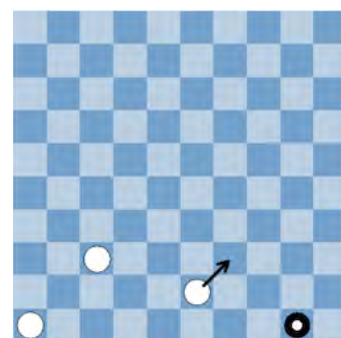

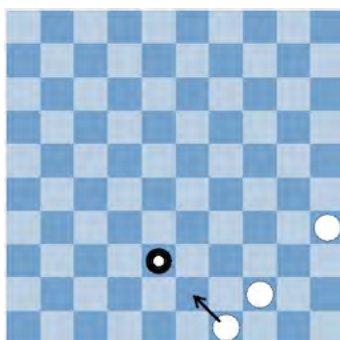

*Dans ces positions on peut donner
deux pions et en reprendre
davantage.*

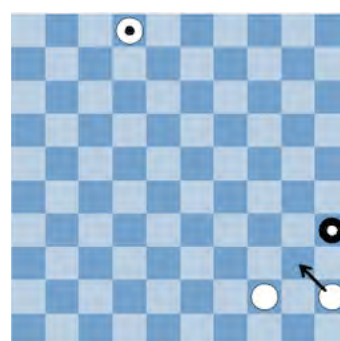

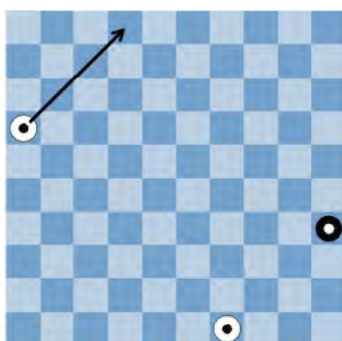

*Ici on peut faire une rafle
intéressante avec la dame.*

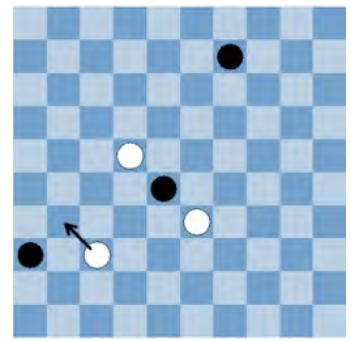

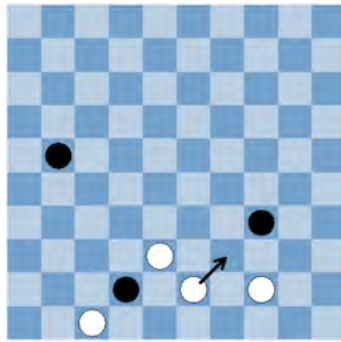

Ici on peut capturer la dame de son adversaire.

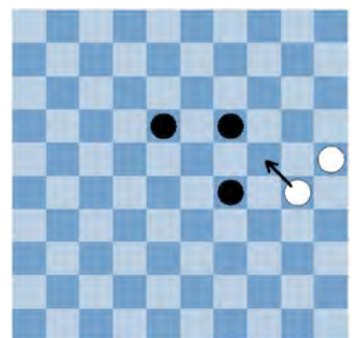

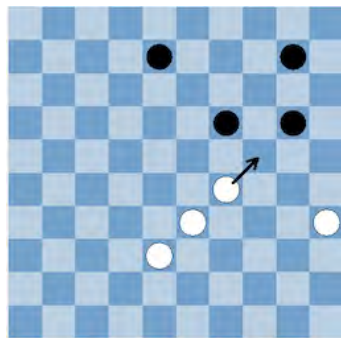

Dans ces positions on peut bloquer la dame de son adversaire.

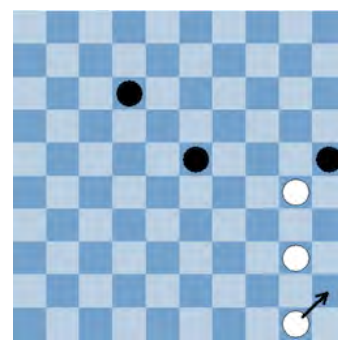

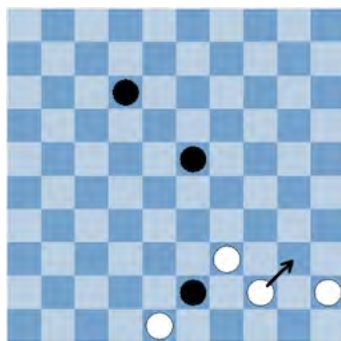

Dans ces rafles on peut profiter de la règle de la prise du plus grand nombre.

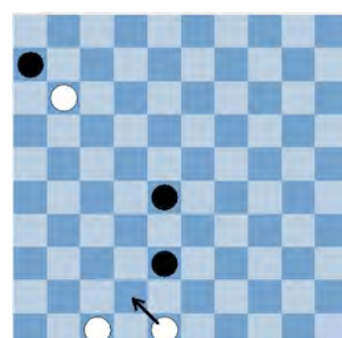

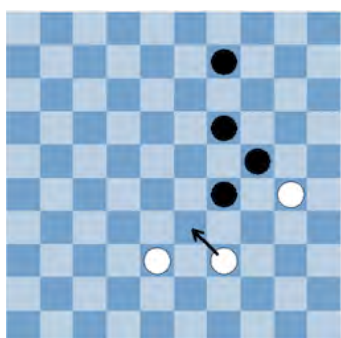

Dans ces positions peu importe de quelle manière les noirs prennent.

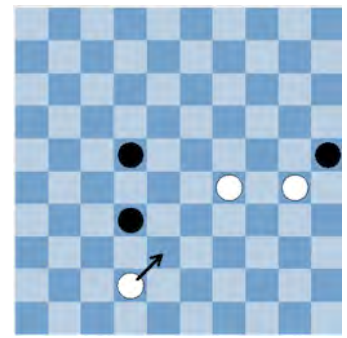

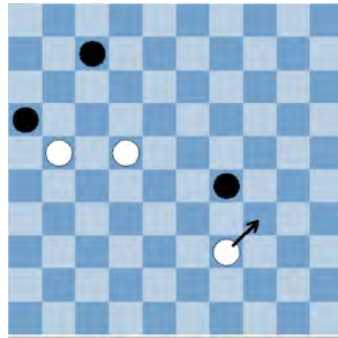

Dans ces positions on a un temps de repos. On peut découvrir une astuce amusante.

Si votre adversaire attaque quelque part un pion, il arrive que vous aussi, vous pouvez faire la même chose. Dans ces positions c'est possible.

En appliquant des collages on profite de la règle de la prise du grand nombre.

Réfléchissez toujours avant de mettre une flèche!

Cahier d'exercices 1B

Jouer mieux aux dames

Dans le cours van der Wal on a appris à jouer aux dames. On a appris par exemple que la prise du plus grand nombre a la priorité. On a appris aussi qu'il ne faut pas jouer n'importe quoi, mais qu'il faut avoir une tactique. Une tactique importante est la combinaison. Dans cette partie du cours on va développer cette compétence de la combinaison. Si on s'entraîne beaucoup, alors on va jouer mieux aux dames. C'est pourquoi il y a deux livres d'exercices dans ce cours. Dans ces livres d'exercices nous avons rassemblé pas mal de positions pour approfondir votre connaissance du jeu.

Dans ce Cahier d'exercices aussi il faut mettre une flèche au meilleur coup des blancs. Nous avons divisé 1b en 14 leçons. Au début de chaque leçon il y a quelques exemples. Regardez d'abord bien l'exemple. Ensuite, on présente 48 diagrammes.

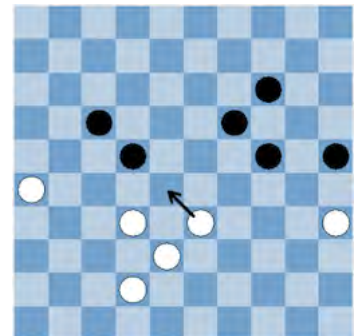

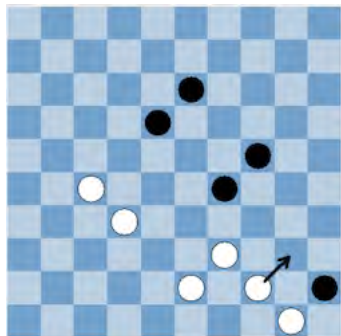

Mais.....réfléchissez toujours bien avant de mettre une flèche. Bien jouer aux dames implique de réfléchir d'abord et ensuite de faire un coup.

Bonne chanceet avant tout, amusez-vous bien!

Leçon 1 Des petits coups 1

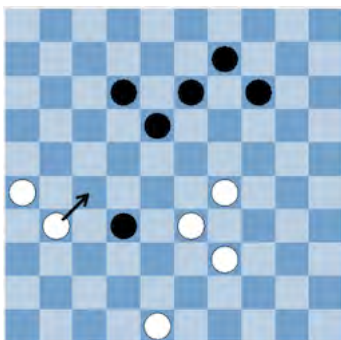

Parfois on peut donner un pion et en
reprendre davantage.

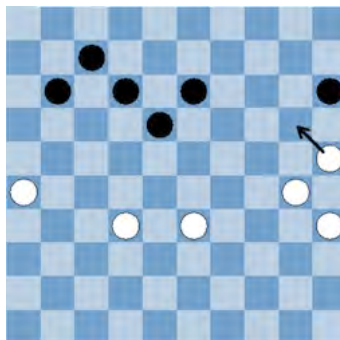

Un coup fort des blancs. Les noirs doivent prendre.
Puis les blancs en prennent trois.

Trois exemples pour montrer comment il faut faire.
